Letter of Reference

To Whom it may concern,

Shertine Construction has completed work for Collingwood General & Marine Hospital over the past years. Contracts ranged from our New Endoscopy Suite 2011/12, with a construction value of 2,000,000.00 to our recent Mammography suite 2014. We have engaged Shertine Construction for a wide range of smaller projects also.

At all times the site and administrative personnel conducted themselves in a very professional manner, respecting the day-to-day operations of the Collingwood General & Marine Hospital. Changes made to the design of the project were handled very efficiently.

I would support Shertine Construction Limited for future projects at the Collingwood General & Marine Hospital.

Sincerely,

John Widdis

Facilities Operations Manager

Collingwood G&M Hospital
